

Olympus Mons Award: Rewarding Global Scientists for Breakthroughs in Data Storage

**Lead global
research on
data storage**

**Build key
technological
breakthroughs**

**Implement
academic
achievements**

**Achieve mutually
beneficial outcomes
across industry,
academia, and institutes**

Challenges for the Olympus Mons Award 2022

Challenge 1:
Data infrastructure with maximum energy efficiency

Challenge 2:
Data storage with ultimate per-bit cost efficiency

Grand Prize: ¥1,000,000 per category
(limited to a total of two entries)
