

GSM-R IOT Assessment

Huawei Technologies and Hörmann Funkwerk Kölleda, successfully integrated HFWK Cab Radio MESA 23 into Huawei GSM-R network release 3.1 and has successfully passed the multi-vendor interoperability test (IOT) in accordance to the requirement of EIRENE FRS Version 7 and SRS Version 15 provided by ETSI as well as the requirement of the UIC Test Catalog O-3001 1.0 provided by UIC ERTMS/GSM-R Operators Group.

The outcomes of these tests confirmed the successful integration of the HFWK Cab Radio into Huawei's GSM-R network"
