

HUAWEI

Huawei AI Certification Embracing AI, Seizing the Future

Certification Process

Exam appointment

- Sign up for the exam on Pearson VUE's website. (<https://home.pearsonvue.com/>)
- Confirm the date and location of the exam.
- Pay for the exam online.

Exam participation

- Go to the authorized Pearson VUE test center to take the exam.

Certificate application

- Apply for the certificate one working day after passing the exam on the Huawei Training & Certification website.

HCIA-AI

HCIA-AI certification is intended to popularize AI and help understand Deep Learning and Huawei Cloud EI, and learn the basic application programming based on the TensorFlow framework, as a motive to promote talent training in the AI industry.

With HCIA-AI certification, it will prove that you systematically understand and grasp Python programming, essential mathematical knowledge in AI, basic programming methods using TensorFlow, pre-knowledge and overview of Deep Learning, overview of Huawei Cloud EI, basic programming for image recognition, speech recognition, and human-machine dialogue.

Suitable Position

HCIA-AI Certification Content

1. Overview of artificial intelligence.
2. Python programming basics.
3. Essential mathematics knowledge and pre-knowledge for Deep Learning.
4. Overview of Deep Learning.
5. Overview of TensorFlow, programming basics, and methods of using TensorFlow programming for image recognition, speech recognition, and human-machine dialogue.
6. Overview of Huawei cloud EI.

Certification Exam

Certification Name	Exam Code	Exam Duration	Pass Score/Total Score
HCIA-AI	H13-311	90min	600/1000

Validity Period of an HCIA-AI Certificate: 3 years

HCIP-AI

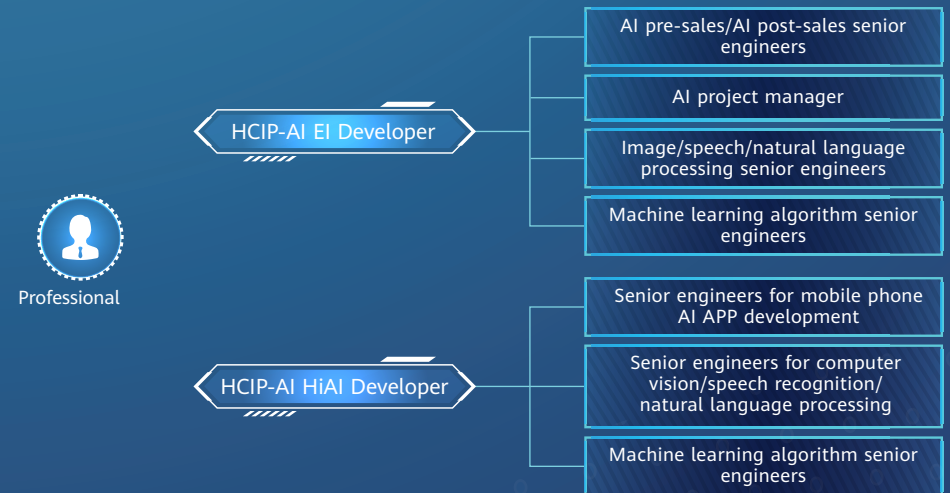

HCIP-AI EI Developer(In Progress)

With HCIP-AI EI Developer certification, it will prove that you systematically understand and grasp the knowledge and skills of neural network foundation, development and application of image, speech and natural language processing.

HCIP-AI HiAI Developer(In Progress)

With HCIP-AI HiAI Developer certification, it will prove that you systematically understand and grasp the theory and application of neural network foundation, computer vision, automatic speech recognition, natural language understanding, and the development and application of HiAI Foundation, HiAI Engine and HiAI Service.

Suitable Position

Certification Exam

Certification Name	Exam Code	Exam Duration	Pass Score/Total Score
HCIP-AI EI Developer	H13-321	90min	600/1000
HCIP-AI HiAI Developer	H13-322	90min	600/1000

Validity Period of an HCIP-AI Certificate: 3 years
