Dear Mr./Ms. _____

As the finance sector is rapidly striding toward an intelligent world, financial services have been comprehensively embedded into daily scenarios that focus on engagements rather than just transactions. Looking into the future, financial institutions should build reliable, secure, and resilient infrastructures, and establish data intelligence platforms to unlock new productivity for finance.

We cordially invite you to the Huawei Intelligent Finance Summit 2024 in Shanghai from June 5 to 6, 2024. This event will bring together leading figures, KOLs, academic experts, and innovative practitioners in the global financial industry. In light of current digital developments, we will discuss how to consolidate the foundation based on "Resilience + Intelligence", to enhance innovation and expedite the industry's intelligent transformation.

We will continue to build an open, collaborative, and shared global platform where you can:

- Connect and exchange insights with thought leaders and business elites.
- Learn from the experiences of big players in the financial industry.
- Forge new partnerships and uncover exciting business prospects.
- Explore innovative applications of the latest ICTs in finance.

We look forward to seeing you there.
Best Regards,

Jason Cao
CEO, Huawei Digital Finance BU
